the process to that industry till the T.S.E.R.C. revises the orders.

Hence this Association humbly submits that the water purifying plant is an industry of processing the water and the same shall not come under the commercial activity. As such, the back billing estimated against the water plant service connections is not justified and the members of this association are not liable to pay the back billing assessment.

In this connection it is requested that the back billing assessment imposed on the water purifying plants shall be declared as illegal and category has to be revised from Cat.II to Cat.III

We request the hon'ble Commissioner to heard in person.

President

Palamoor RO Water Plant  
Association
