

PRESS NOTE

On November 18th 2021, Telangana State Electricity Regulatory Commission Chairman Shri. T.Sriranga Rao Garu, Member Technical, Member Finance ,Secretary , Joint directors and staff of total 20 members has visited south India's biggest waste to energy plant of 19.8MW and India's largest landfill gas-to-compressed biogas plant at Hyderabad Integrated Municipal Solid Waste (HiMSW) site developed and maintained by Ramky Enviro Engineers Limited.

The main purpose of the visit is to get a deep insight, first-hand experience of the plant and its environment. As their virtual environment cannot substitute the real-life experience.

Mr. Gautam Reddy CEO&MD of the organization welcomed the TSERC delegation headed by Shri. T.Sriranga Rao Garu, and gave a company introduction. Their managers then gave presentations & site tour to highlight the company's industrial automation and energy-saving solutions of the plant, specialties of the plant, lab facilities, plant processes, various technologies using to reduce emission, biogas plant, water treatment plant, various policies of the organization to enhance the capacity. Finally, TSERC and Ramky Enviro engaged in a discussion to share ideas regarding implementing latest technologies and environment solutions.

Overall, the TSERC delegation was inspired to see Ramky's strong focus on waste to energy as the future. During the visit, delegates were keen to understand the waste to energy solutions including process of handling the ash, emissions and biogas plant. Ramky's large footprint, integrated portfolio and R&D network left a strong impression on the TSERC team.
