Secretary: Ninakanti Sudhakar Reddy  
Cell No.9989915485

Dated: 20-01-2018

Before the Hon'ble Commissioner/Secretary,  
T.S.Electricity Regulatory Commission, Hyderabad

Sir,

SUB: Electricity Regulatory Commission meet to the held on 08.02.2018 at Kamareddy, how many services of Agriculture motors Single phase converted to three phase in the villages of Mogullapally, Chityal and Tekumatla Mandals of Jayashankar (Bhupalpally) district and the Financial support to consumers – Requested to provide Time to express our personal opinion.

--ooOoo--

We on behalf of Bharatiya Kisan Sangh, Jayashakar (Bhupalpally) district, do here by submits that we are extremely glad to know that T.S.E.R.C. to here the problems of consumers under N.P.D.C.L at Kamareddy on 08.02.2018.

In this connection we would like to know the following information and also provide time for our submission.

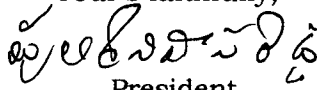

How many connections of the Farmers of the villagers of Mogullapally, Chityal and Tekumatla Mandals of Jayashankar (Bhupalpally) district are converted from Single Phase to three Phase, is it at the request of farmers or of the Board Policy. To our knowledge no farmer requested for conversion. Previously about fifteen years back as policy of the board our three phase connection of agriculture wells are converted to single phase. At that time the contractor, who converted replaced our three phase motors with single phase motors on the cost of the board. This time when, the contractor came for conversion the consumers represented to the contractor concerned A.E.E. and Dy.E.E.to replace the single phase motors with

the three phase motors at the cost of board. But they put deaf ear due which the consumers are suffering allot. As because many people being too poor to have economic support. Many of the consumers (agriculturists) approached us to put their grievance before the Board for redressel.

In the circumstances, we request the board when, it is converting single phase to three phase of it's own policy the board should replace the single phase motors of consumers with three phase motors on the cost of the board.

Your's faithfully,  
  
President

  
Secretary
