**Lr. No. CGM(IPC&RAC)/NPDCL/WGL/GM/IPC/F.RPPO/D.No.512/20,Dt:23.12.2020**

Sir,

**SUB :-** TSNPDCL/WGL – Public Notice on Suo-moto determination of compliance of RPPO of obligated entities for the FY 2018-19 in OP No. 31 of 2020–Comments - Submission - Regarding.

**REF :-**1) TSERC Public Notice Dated 05.12.2020.  
2) TSERC Regulation No. 2 of 2018 (Compliance by Purchase of Renewable Energy /Renewable Energy Certificates)

\* \* \*

With reference to the subject matter, TSNPDCL is herewith submit to allow obligated entities for adjustment of excess renewable purchase from solar to non-solar vice-versa to the extent of shortfall for determination of compliance of Obligated Entities in either of sources taking following into account

- a. availability of such sources, and
- b. cost per unit of purchase from such sources in comparison to the other source (like solar) in order to avoid the financial burden to the Obligated Entities, which in case of Discom shall has to pass on to its consumers.

In addition to above, it is to submit that the Electricity Act 2003, which is the governing law for the power sector in the Country, mandates the Discoms to procure power on “least cost principle “from cheaper and economical sources for safeguarding the consumer’ interest, and the benefit will be passed onto the consumers ultimately.

Yours faithfully,

  
23/12/2020  
CHIEF GENERAL MANAGER
